

## Dunn & Pedro, CPA's

229 Empire Boulevard, Rochester, New York

### BEFORE

**PROGRAM:** Tenant alterations and change of use from an existing hair salon to a new CPA's office.

**COST:** \$65,000

This project converted an existing house structure into a profession office for a Certified Public Accountant. The space consisted of broken spatial elements that we demolished to open up the space and create a better work flow. A new central staircase was added as the focal point of the office. In addition, various handicapped accessibility issues were addressed to make the space code compliant.
