

SIMBARI DESIGN

Architecture, PLLC

OcuSight—Greece Office

Latta Road & Long Pond, Rochester, New York

PROGRAM: 6,000 SF free standing wood framed office building.

COST: \$700,000

This project was designed for a local ophthalmology group. It serves as a regional office for eye care and sales. Master-planning was done on the site, as well as during the floor plan design, to plan for future expansion of the office, allowing for an addition 3,000 square foot addition in the future.

* Project completed by Thomas J. Simbari, RA, AIA while employed by others.
