ROCHESTER GENERAL HOSPITAL

Tomaino Orthopaedic Care, Rochester, New York

PROGRAM: 3,550 square foot outpatient doctors office

COST: \$400,000

This project consisted of creating a new high profile outpatient orthopaedic doctors office specializing in hand, shoulder and elbow treatment. The project is to be the foundation for the Orthopaedic Center of Excellence on the Rochester General Hospital campus. Included in the project are 6 exam rooms, 1 treatment room, one x-ray room, as well as doctors offices, business office and other support space.
